### Preventative Maintenance

A driver got a surprise the other day when he took his vehicle to a service facility for an oil change. He knew his owner's manual schedules an oil and oil filter change every 5,000 miles/8,000 km, but when the Service Advisor suggested his cabin air filter should be replaced, he thought they were just trying to sell him something he didn't really need. After all, how bad can a cabin air filter be? The Service Advisor offered to show him the old one before he made his decision, and what the driver saw shocked him. Instead of a nice, intact filter, the old one was full of dirt, leaves, and other unidentifiable ick!

You'll find cabin air filters in most newer vehicles, but many drivers don't even know they have one. They filter out things like dust and other particulates like pollen before the air goes into the passenger compartment. This can be very helpful to those with allergies and sensitivities to airborne pollutants. Your vehicle manufacturer will recommend how often a cabin air filter should be changed. Of course, if you drive in areas that are dusty or polluted, you may want to change it more frequently. A couple of signs your cabin air filter is dirty? Not as much air comes out your vents when you turn on your ventilation system fan, and the air smells musty. You may also notice more dust in your passenger compartment.

We can help keep your cabin air in good shape. You'll breathe easier.

### ABQ Events

September 9-19, 2021

### Important Dates

- LABOR DAY SEPT. 6<sup>TH</sup>
- GRANDPARENTS DAY SEPT. 12<sup>TH</sup>
- AUTUMN BEGINS SEPT. 22<sup>ND</sup>
- COLUMBUS DAY OCT. 12<sup>TH</sup>
- BOSS'S DAY OCT. 16<sup>TH</sup>
- HALLOWEEN OCT. 31<sup>ST</sup>

### Ancient Origins Of Halloween

Halloween's origins date back to the ancient Celtic festival of Samhain (pronounced sow-in). The Celts, who lived 2,000 years ago, mostly in the area that is now Ireland, the United Kingdom and northern France, celebrated their new year on November 1. This day marked the end of summer and the harvest and the beginning of the dark, cold winter, a time of year that was often associated with human death. Celts believed that on the night before the new year, the boundary between the worlds of the living and the dead became blurred. On the night of October 31, they celebrated Samhain, when it was believed that the ghosts of the dead returned to earth. In addition to causing trouble and damaging crops, Celts thought that the presence of the otherworldly spirits made it easier for the Druids, or Celtic priests, to make predictions about the future. For a people entirely dependent on the volatile natural world, these prophecies were an important source of comfort during the long, dark winter. To commemorate the event, Druids built huge sacred bonfires, where the people gathered to burn crops and animals as sacrifices to the Celtic deities. During the celebration, the Celts wore costumes, typically consisting of animal heads and skins, and attempted to tell each other's fortunes. When the celebration was over, they re-lit their hearth fires, which they had extinguished earlier that evening, from the sacred bonfire to help protect them during the coming winter. The first was Feralia, a day in late October when the Romans traditionally commemorated the passing of the dead. The second was a day to honor Pomona, the Roman goddess of fruit and trees. The symbol of Pomona is the apple, and the incorporation of this celebration into Samhain probably explains the tradition of bobbing for apples that is practiced today on Halloween.

### Car Shows

- September 6** – Power Ford Labor Day Show – Power Ford, 1101 Montano Rd. NE, Albq – Register on line at <https://www.powerfordnm.com/carshow>
- September 9-19** – State Fair Model Car Contest & Show – NM Expo, Albuquerque – See complete rules and details at <https://statefair.nmexpo.com>
